Potential Student Profile / Criteria for Admission:

What the award is about and who the programme is aimed at:

The BA (Hons) Sport Business Management programme is founded on an interface of vocational and academic elements to produce graduates with knowledge and experience of the sport industry, and specific sectors within the sport industry, as well as transferrable and applied skill-sets, in particular relating to autonomous critical thinking and research activity, which will provide an effective service to the industry and meet the demands of the modern, itinerant graduate.

The course is a three year full-time Bachelor degree programme. There is an option for students to take an Erasmus study year or to include a Sandwich year to undertake employment, in which case the course is 4 years, with a core focus on business and management in the sport industry.

Differentiation of the individual courses will be manifest in options that provide the student with knowledge of the environments and governance and administration of the individual sports (football, rugby, golf).

The degree is aimed at those school leavers who wish to develop the skills, knowledge and employability profile that will provide them with the opportunity to gain employment in the sport business sector. It is equally geared toward fulfilling the needs of those mature students with an interest in returning to the workplace and securing employment in the sports industry. Students should choose this award if they are seeking to study a course that focuses on the management challenges facing the sports industry today. The degree is forward-looking and remains fully responsive to the ongoing changes taking place in the sports industry.

Why students should choose this award:

The degree will provide students with a strong business studies foundation and an understanding of the unique challenges and issues facing sports management. The programme consists of a blend of professional and academic elements to develop graduates with the essential knowledge and experience of the sports industry.

There is a unique focus on transferable and applied skills, as well as critical thinking and independent working, providing students with a broad learning base to hit the ground running when entering the workforce after graduation. Students will be trained in current, relevant curriculum, which reflects the needs of both the sports industry and the modern graduate, boosting your employability and skills base.

The London 2012 Olympics illustrated various businesses functions including sports tourism, facility, stadium and events management and sports media. The growth in this sector means that there is strong demand for quality graduates who can demonstrate both knowledge and experience of working within the sport business.

Employability will be a particularly important theme throughout the degree and students are encouraged to gain as much industry experience as possible through volunteering, paid part-time work, work experiences and the sandwich year option.

Students will be introduced to a number of the University's public and private sector industry partners who deliver guest lectures and work with the University to develop internship and employment opportunities with companies such as:

- The Football Association (The FA)
- 110% Marketing
- The Chartered Institute for the Management of Sport and Physical Activity (CIMPSA)
- Bucks Sport
- Parkwood Leisure
- Representatives from Bisham Abbey

Opportunities available for students after completion of the award:

Students will study the foundations of sport business and will understand the varying challenges and issues facing the industry. Graduates will be experienced from key industry experiences throughout the course and will be ready to enter the workforce with confidence from the perfect blend of professional and academic elements throughout the programme. Additionally a diverse range of industry partners offer a unique opportunity to network, providing valuable contacts for students during your studies and after you graduate. After graduating from the programme, you will also have the skills and knowledge to set up your own businesses.

Graduates will have the following opportunities for career pathways:

- Sports events management
- Sport facility management
- Sports entrepreneur
- Sports marketing and media
- Health and fitness industry
- Self-employment in sports business

For BA (Hons) Sport Business Management (3 years)

Expected knowledge and skills that the entrant will have on entry to the programme:

Admission regulations are in accordance with those prescribed by University Regulations. A typical entrant would be expected to have GCSE English and Mathematics at Grade C or above and a UCAS Tariff score of 200-240. This score can be achieved from a minimum of two 4-unit GCE A-levels or equivalent. Entrants would be expected to have passion for sport and some experience of working within the sport industry would be an advantage, but is not essential. Good communication skills are essential as students will be assessed in a number of ways including both written work and oral communication, and at times through the course will be expected to converse and work with external organisations. Entrants must be prepared to take responsibility for their learning, and be willing to work both individually and as part of a team and to participate fully in course activities. Basic ICT skills will be an advantage.

For BA (Hons) Sport Business Management with Foundation Year (4 years)

Applicants who do not meet the minimum requirements for the 3-year programme, or those who do not feel fully prepared for a Level 4 course, will be considered for the 4-year programme including a Foundation Year. Please see the University's General Entry Requirement webpages for requirements for entry at this level.

SECTION B: PROGRAMME AIMS, OUTCOMES, LEARNING, TEACHING AND ASSESSMENT METHODS

Programme Aims

The main educational aims of the programme are to:

- Create opportunities for students to interface with real businesses in sport to put their study into practice.
- Focus on transferable and applied skills, as well as critical thinking.
- Provide a strong business studies foundation and an understanding of the unique challenges and issues facing sports management.
- Create graduates who are reflective practitioners and who can contribute to a fast moving market sector.
- Provide an inclusive, current and versatile curriculum of study which reflects the needs of both the sport industry and the challenges with which it is confronted in an era of ongoing growth
- Prepare students for employment or for postgraduate study by fostering an environment in which students are encouraged to: develop academic skills; challenge knowledge; apply theory to practice; develop critical awareness, analysis, and reasoning; solve problems; synthesise and evaluate information; and engage in research
- Enable graduates to meet the changing demands of employment through acquisition and development of a wide range of personal and transferable skills required by employers in the sports industry: self-reliance; reflection; adaptability; creativity; flexibility; interpersonal communication; teamwork and leadership qualities
- Develop the confidence and academic skills of students enabling them to become active and autonomous learners and critical thinkers

- Encourage students to reflect upon their studies and take responsibility for their own learning and continued professional development
- Enhance the student experience and employment opportunities through engagement with our sports industry partners

Learning, Teaching and Assessment Methods to achieve the Programme Learning Outcomes

BA (Hons) Sport Business Management aims to provide a balanced programme of study that equips students with industry knowledge and experience, academic and cognitive, and critical and transferrable skills, which will create culturally aware, prepared and responsive graduates. The course is underpinned by classroom-based teaching of current theory, concepts and research, delivered through a blend of lectures, interactive seminars and workshops, small-group activities and debates and supported at every stage by e-learning material. Additionally, throughout the three levels of study students are encouraged and enabled to form relationships with external partners including local,

regional, national and international, to build networks in the longer term and essential vocational knowledge and experience in the shorter term.

Students are encouraged to become increasingly more independent in their learning as the course progresses. During the Foundation Year, students will be exposed to a variety of summative and formative assessments whilst developing the academic skills to be a successful student at university; course content and Learning Outcomes strongly relate to students developing their knowledge and understanding of the subjects being studied and assessed. At Level 4 students are provided knowledge of the key functional areas of sports business in lectures and undertake related discussion and exercises in seminars and workshops where they receive guidance and support from module tutors. Through the Level 4 module, Professional and Academic Skills for Sport, students 'learn to learn' and are provided the foundation for developing the knowledge and skills required of all elements of the course and for life-long learning. Further modules introduce students to functional tools for working in the sports industry, such as finance and marketing as well as the introduction of critical, cognitive abilities and basic research tools in the Applied Sports Field Study module. This will also ensure that all students have a chance to explore, visit and create networks within the industry.

At Level 5, students are expected to take a more active role in their own learning and future careers, to apply theoretical knowledge and to show deeper understanding as the complexity of the issues covered in modules increases. The Level 5 module, Research in Sport and Exercise, prepares students for the research dissertation at Level 6, in which they have the opportunity to draw all conceptual, vocational and research elements of the course together via a major independent study. Digital marketing modules ensure that all of our students have an opportunity to study the impact of modern media technology and the growth of the contemporary sport business. Students are also able to select a 15-credit option module in each semester, which allows them to tailor their programme to a small extent by engaging in elements of sport business management, or benefit from our unique partnerships which underpin the sport-specific studies in rugby, football and golf. As in Level 4, modules are delivered through a blend of lectures, interactive seminars, workshops, small-group activities and debates and are supported by e-learning material delivered through the VLE, with specific learning and teaching approaches determined at modular level.

At Level 6 the focus turns to the skills adopting a strategic approach to sports business. The broader approach to teaching and learning at Level 6 is aligned to independent learning and the students' ability to critically review and analyse, synthesise and evaluate the information at their disposal in order to make informed and self-assured decisions for a more inclusive and socially-conscious sports world. The core modules of Strategic Sports Management & Finance and Sport Commerce and Regulation combine practical knowledge and tools for advancing sport business practice and the improvement of academic intelligence around critical thinking, analysis and synthesis, and self-reflection, as well as problem solving and decision-making. The aforementioned Research Dissertation provides further opportunity for students to develop autonomous working practices, where they are challenged to plan, design, execute and disseminate a significant piece of work. In addition, further 15-credit option modules allow students to continue to pursue a particular interest.

Like the teaching and learning strategy, the specific assessment methods are determined at modular level, but are designed to reflect the course aims and learning outcomes, to equip students with industry knowledge and experience, academic and cognitive, and critical and transferrable skills, which will create culturally aware, prepared and responsive graduates for an inclusive and socially-conscious sport industry. To this end, while there is a varied diet of assessment at all three levels, it is predominantly coursework-based and, where possible, is designed to mirror 'real world' sport business activities, such as designing, implementing and evaluating business solutions, this will include activities such as applying for funding, appraising financial performance and preparing marketing strategies.

Work-Based / Placement Learning

Students will be offered the opportunity to engage with an Erasmus year of study between level 5 and level 6 (this will not form a part of the final classification). Students will also be offered the opportunity to spend an optional year in a work environment. Guidance will be offered by lecturers on obtaining a suitable experience but it is the students' responsibility to secure the experience.
