Programme Introduction

The BA (Hons) in Music Business offers an exciting and distinctive degree course designed to prepare students for careers in the music industry, now the largest single sector of the music industry as a whole. Whether students are interested in managing artists, working for record labels, or the business of songs, students will graduate understanding the roles and responsibilities associated with every aspect of the industry and with the economics, logistics and information flow that sustain it.

In the first year, students will learn about the basic structures of the music industry as whole, how music is made and sold, and about the cultures that foster it. Students will also learn about core management

skills, both of themselves in ways that will develop sustainable careers and of artists, of venues, and of companies.

In the second year, the 'doing' year, students will be engaged on a real-life, real-time production of a large-scale business project and, with support from staff and from teaching across all modules, will learn the skills necessary to translate business ideas into practice. This year will foster and develop communication and interpersonal skills, problem-solving in real time, pressurised situations, and skills relating to the evaluation of and reflection upon performance.

The final year will focus on an individual project where analytical, synthetic, and research skills will be developed. Individual and independent learning will be the key learning styles this year, supported by modules that look at the strategic and long-term thinking that informs the industry.

Distinguishing Features of the Programme

This is a very practical course with a strong focus on employability, working within the music business. It provides specific focus on the music business with industry and employability focus, is forward facing looking towards the music industry of the future

Admission Requirements

The student profile at entry for these programmes is as follows:-

- School/College leavers who wish to acquire a degree and continue to pursue a career in the music industry
- Articulation from arts, music performance and music technology FE programmes, such as those delivered by Oxford and Cherwell College of FE to university qualifications
- Mature students who have demonstrated an interest and involvement in the music industry but who lack the necessary formal qualifications.

Beyond the above articulated routes of entry, a proportion of the students for these programmes will already have engaged in some form of activity within the music sector; playing in or promoting bands, putting on shows or club nights etc.

The minimum entry requirements for the programme are as follows:

For BA (Hons) Music Business (3 years)

Applicants will normally have achieved one of the following:

- Two A-levels at Grade C achieving a UCAS tariff of 80-96.
- A National Diploma or Certificate in an appropriate subject at Merit level.
- An art or design foundation course or Level Zero course.
- A Merit level Advanced GNVQ in an appropriate subject;
- An equivalent qualification

Students will also be offered entry by portfolio submission against criteria devised by the lecturing team.

Mature applicants without the above qualifications are also welcome to apply and entry is subject to a review of qualifications and relevant experiential learning. International applicants for whom English is a second language should have achieved IELTS 6.0 (with 5.5 the lower limit in any of the elements of Listening, Reading, Writing and Speaking) or equivalent for entry into Level 4.

Students are normally expected to enter at Level 4, but can be admitted to any level of the course which is considered suitable, after a review of previous academic credits or consideration of other learning or experience relevant to the subject matter of this course, in accordance with the University APL policy.

Recognition of Prior Learning

Students may be considered for entry into later years of the course on production of evidence of accredited prior learning (APL) in accordance with the University APL policy.

For BA (Hons) Music Business with Foundation Year (four years)

Applicants who do not meet the minimum requirements for the three-year programme, or those who do not feel fully prepared for a Level 4 course, will be considered for the four-year programme including a Foundation Year.

Please see the University's [General Entry Requirement](#) webpages for requirements for entry at this level.

The above learning outcomes will be demonstrated by the achievement of 120 credits listed at Level 4 for this programme.

Learning, Teaching and Assessment Methods to achieve the Programme Learning Outcomes

How will students learn:

At **Level 4**, the modules are designed to provide students with a solid understanding of the music business in all its aspects and to develop the study and interpersonal skills to carry them successfully to completion of an honours degree. Modules are delivered through a blend of lectures and seminars, the latter combining workshops, small group activities and debates. Classroom based learning will be supplemented with site visits and practical event management tasks, supported, at this stage by staff.

Level 5 is the 'doing' year, the keystone of which is a large scale, project which the students design and deliver as a group. Teaching this year is built on participatory and collaborative learning, with the students actively guiding the direction of their projects. In support of this, modules intellectual property law and e-commerce will broaden and deepen the understanding of the industry established at level 4.

Level 6 is the year in which we prepare students for exit by strengthening and supporting their capacity for individual, research led learning. The centrepiece is the dissertation—supported by the research methods module at Level 5—which aims to prepare students for independently conducted, business specific research in the workplace and for further study. At this stage in their development, students' understanding of their area moves from the operational to the strategic, and the focus is on the ability to analyse, synthesise and develop a vision of the future of both the industry and their roles within it.

Teaching at all levels is delivered by a core course team with guest speakers as required; content is made available through the Virtual Learning Environment. Personal tutoring is available at all levels and students are encouraged to maintain an ongoing dialogue with the course team throughout.

How will students be assessed?

During the Foundation Year, students will be exposed to a variety of summative and formative assessments whilst developing the academic skills to be a successful student at university; course

content and Learning Outcomes strongly relate to students developing their knowledge and understanding of the subjects being studied and assessed.

At **Level 4**, assessments will be designed to build skills and confidence with regard to academic writing, presentation and independent research. At the end of the year, students will know how to structure and write a properly referenced academic essay and how to deliver a presentation on an independently researched topic to their peers.

At **Level 5**, The centrepiece will be a business project that brings together the management basics covered at Level 4 with the entrepreneurship skills and practice developed this year to develop and deliver a business project to be workshopped in class and delivered as a group.

At **Level 6**, students will, as part of the Research Methods module, deliver a focussed and workshopped proposal to be carried out at the dissertation stage. Assessments on other modules will aim to develop sophisticated and thoughtful standard of analytical and interpretative skills that would be expected from an honours level graduate.

At all levels, feedback will be positive, timely (delivered within three working weeks, with the exception of the dissertation) and staff will always offer students the opportunity to discuss assignment outcomes in person, one-to-one.

Table 3: Breakdown of Contact Hours

Note: Hours are worked on the basis of full-time study. 1 Academic Credit is equated to 10 notional learning hours. A full-time undergraduate student will normally study 120 credits in an academic year which is therefore equated to 1200 notional hours. A full time postgraduate student will normally study 180 credits in an academic year which equates to 1800 hours. Module Descriptors provide detailed breakdowns of the categories given below.

Year of course	Scheduled Learning and Teaching Activities	Guided Independent Study	Placement / Study Abroad	Total
Year One	360	840		1200
Year Two	360	840		1200
Year Three	324	876		1200
Total	1044	2556		3600

Students who study this programme with a Foundation Year will complete an additional 1200 hours during that year.

SECTION D: ASSESSMENT REGULATIONS

This programme complies with the approved University regulations *University Academic Framework and Assessment Regulations* and procedures as detailed on the University website.

The following modules will be non-compensable:

- MC691 Dissertation

The calculation of this award will be:
