

BucksAnywhere client Installation on a Personal Device.

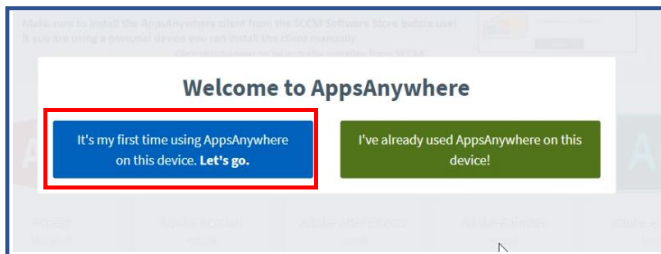

1. Click the link below:

<https://bucksanywhere.bucks.ac.uk>.

Login using your Bucks email address StudentID@bucks.ac.uk if a staff member, please use your staff email address i.e. FirstName.LastName@bucks.ac.uk and normal IT password.

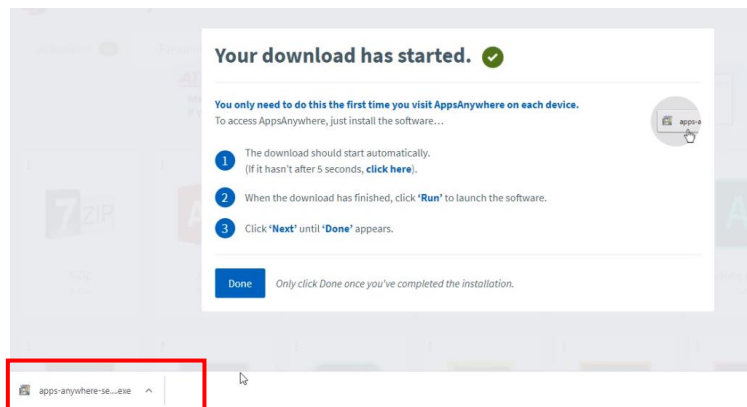

Click on “It’s my first time using AppsAnywhere on this device. Let’s go.”

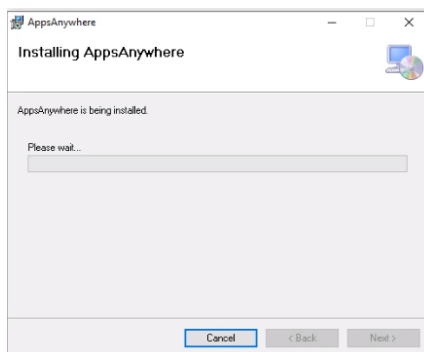

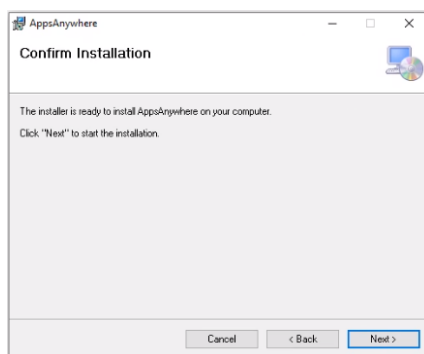

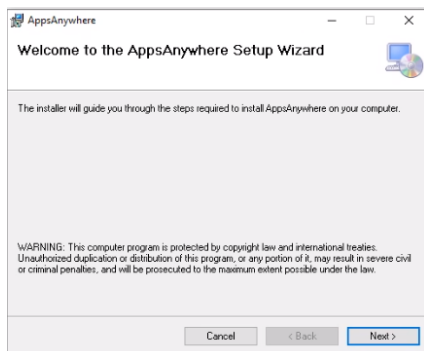

Download & Install.

2. Follow the steps on the screen below.

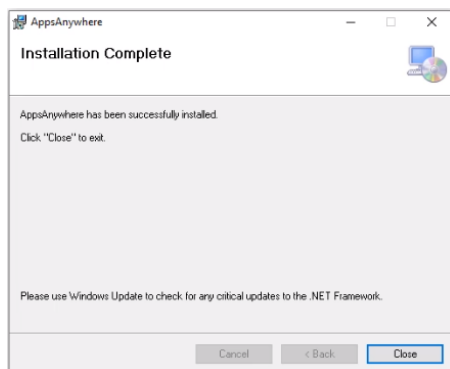

Run through the installer accepting the defaults by clicking “Next”.

If a window pop up appears and asks if the application can make changes to your device,

Click yes.

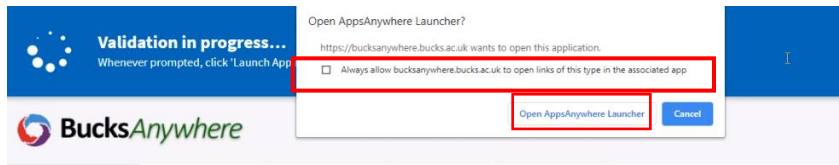

Click “Close”

Once the installer has successfully installed, go back to the BucksAnywhere app and click on “done” which will then take it to the validation page.

3. Validation Steps:

Tick the “always allow Bucksanywhere.bucks.ac.uk to open links of this type in the associated app”

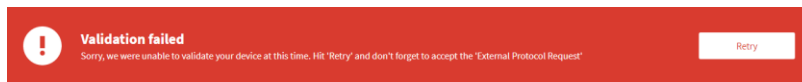

Click on the “open AppsAnywhere Launcher”.

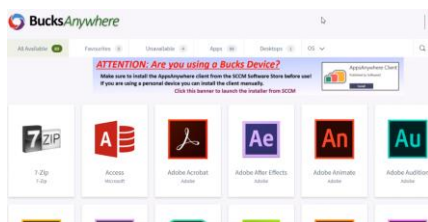

If you fail to install the agent on Windows, BucksAnywhere will fail to validate, which is indicated by a red validation failed banner at the top of the page

If this occurs, click on Retry. If that does not solve the issue, restart your web browser and log back into BucksAnywhere.

Once Validation has been completed, the applications are ready for you to launch on BucksAnywhere.

Below is the Cloudpaging Player this will show you the application status.
