

## **BA (Hons) Textile Design**

### **Additional Course Costs**

**There are costs associated with all studies, additional to the tuition fee, which require consideration, when planning and budgeting for expenditure. Costs are indicative and for the total length of the course shown unless otherwise stated and will increase with inflation; depending on the programme they may include equipment, printing, project materials, study trips, placement activities, DBS and/or other security checks.**

Additional course costs for BA (Hons) Textile Design are outlined below:

#### **Books and other Texts**

Students will be required to purchase texts and journals to support their study programme. The minimum, average cost of books for students studying on a degree course is assumed as £100 per year.

#### **Printing**

We recommend a minimum budget of £50 per year for basic printing/photocopying costs. Additionally, there may be additional costs associated with photographic or portfolio printing which can range from £50 -80 per year. Costs are estimated and are entirely dependent on individual choice of presentation, paper stock, size etc.

#### **Equipment/Materials**

BNU will provide the tools, materials, consumables for all demonstrations and students' orientation in relation to products. Any materials required beyond the demo stage (e.g. for coursework or projects) will need to be covered by the student; these costs can vary depending on what materials are required but project costs are estimated between £100 and £300 per year. Students will have to acquire their own art materials and supplies including sketchbooks, drawing materials and basic textile related equipment (scissors, sewing needles, cutting matt etc). This can cost between £100 and £200.

BNU will also produce a price list for printing material, stationery, workshop materials among other small expenses which students can independently purchase for project work.

#### **Study Trips**

Compulsory study tours and trips within the UK will cost between £100 and £200 per year with optional overseas trips estimated at between £200 and £1000.

#### **In year or end of year exhibitions and projects**

This course requires a degree exhibition and major projects so additional costs will be incurred. These costs can be discussed in detail with your course team and some will be linked to a professional skills element of the course where organised fundraising for such activities may be included. Materials costs for this will vary depending on scale and selection, and could be between £200 - £800.

#### **Graduation**

Graduation costs per student are estimated at £100 - £200 total. This is an optional cost for all students, as attending graduation is not a requirement in order to have a degree conferred.

#### **Opportunity Modules**

You can choose from a range of modules on offer, and these may incur a small cost, for example, for materials or travel to locations or work-based learning experiences. They will range from one module to another – please check the module information or ask your course team for details.
